Dear Harry,

As you are aware, our shelter for battered women was really in a predicament. The fire department, after an inspection, advised us that our security and fire equipment did not meet the City of Brainerd and NFPA 72 code Standards and it had to be replaced immediately. We were taken off guard and unsure how to proceed. So we called you and you were able to help us promptly, which we really appreciated. You were also able to provide "above and beyond" extras for us such as working with the fire department.

Both you and Jared were courteous and sensitive to the women and children staying at the shelter and made every effort to keep from interrupting the work of the staff. We look forward to working with you in the years to come.

Yours truly,

A. Louise Seliski, ACSW, LICSW
Executive Director
